EDUCATION

Stony Brook University

Bachelor of Science, Computer Science

May 2021

Stony Brook, NY

- Major GPA: 3.6/4.0
- Graduated Cum Laude

WORK EXPERIENCE

Software Engineer

Tata Consultancy Services

December 2021 - December 2023

- Developed a Spring Batch data processing system used for various in-house applications.
- Proactively familiarized myself with the project by studying source code, including Java and Spring Boot components, to enhance my contribution to the team's efforts.
- Led a team of trainees on a group project as assigned leader while also actively contributing to project planning, coordination, and successful delivery of project objectives.

Security Analyst Research Assistant

Stony Brook University

February 2021 - May 2021

- Performed comprehensive security analysis on multiple mobile applications.
- Created detailed security reports that synthesized technical findings into actionable insights.
- Developed and executed multiple proof-of-concept to thoroughly test potential vulnerabilities.

VOLUNTEER EXPERIENCE

Full-Stack Developer

Betances Group Corp

September 2021 - December 2021

- Led cross-functional team to design, build and deploy a secured full-stack application.
- Collaborated with stakeholders to gather and incorporate requirements into the final product.
- Enhanced customer satisfaction by developing an online inquiry tool.
